FEATURED SOFTWARE & DESIGN PROJECTS

DevConnect – Full-Stack Developer Community Platform

Tech Stack: React.js | Node.js | Express.js | MongoDB | Tailwind CSS

- Architected and deployed a responsive full-stack web app featuring user authentication, profile management, and interactive discussion threads.
- Engineered 15+ RESTful API endpoints for secure user authorization and data retrieval, maintaining seamless database interaction.
- Designed full UI/UX prototypes and high-fidelity wireframes in Figma, implementing utility-first Tailwind CSS to improve page render speed by 25%.

E-Commerce Experience Hub & Analytics Dashboard

Tech Stack: React.js | JavaScript (ES6+) | RESTful APIs | Figma

- Built an interactive e-commerce product catalog with dynamic filtering, live search, and global state management using React Hooks.
- Integrated external payment gateway APIs and mock product endpoints, testing API responses via Postman for sub-200ms latency.
- Crafted custom UI design components in Adobe Photoshop and Illustrator, ensuring 100% cross-device visual consistency.

Brand Identity & Graphic Design Suite

Tech Stack: Adobe Photoshop | Adobe Illustrator | Canva | UI/UX Prototyping

- Created high-resolution digital media assets, corporate visual logos, and print-ready graphic suites for external clients and projects.
- Optimized vector graphics and media assets to maintain high visual fidelity while reducing overall application asset sizes by 35%.
